WHAT YOUR EMPLOYEES GET

Personal decision support

Shopping for benefits doesn't have to be a confusing chore for employees. Ask Emma is a friendly guide who helps your people make more educated and personalized choices. She uses national and personal data to suggest plan options and help employees find the right match. (Plus, she explains healthcare jargon along the way!)

Customized engagement and education

Engage with your employees more effectively. Use bswift Video Solutions and Communication Services to:

- ✓ Deliver dozens of standard clips to educate your employees — or even create custom videos
- ✓ Show employees how to complete common tasks — like adding a dependent
- ✓ Provide automated alerts to your employees

First-class customer service

We hire people who exemplify our values of higher standards, greater accountability and more fun. Our customer service team is thoroughly trained in key areas like insurance, HIPAA compliance and more.
