### THE STORY

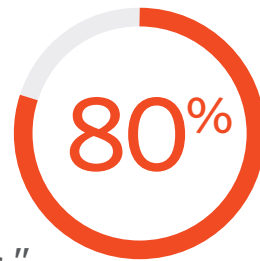

Boehringer Ingelheim needed a flexible and reliable benefits administration solution to support their large population. With a small benefits department, multitasking this with other projects was challenging. See how bswift helped Boehringer Ingelheim get some time back and have a successful first enrollment.

### WHY bswift

Flexible Platform  
Proactive Service  
Secure Experience

### BY THE NUMBERS

"In our first annual enrollment with bswift, we had over 80% of our population enroll which topped the charts."

"We're a very small department of three or four people for 10,000 employees and over 1,000 retirees. We've been able to move many transactional activities and other work to bswift so that we can focus on bigger projects and strategizing."

  
**10,000**  
employees

### THE SERVICE

"We've developed a really good relationship with our account team at bswift... their attention to detail is impeccable."

"Ultimately, we chose bswift because they brought an incredible team to the table and the system offered everything we needed to improve our current system for employees."

**"The enthusiasm  
bswift brings  
to benefits  
technology  
really resonated  
with us."**

"The bswift team is very proactive, especially when it comes to their Service Center. Before we even have a chance to contact bswift they've already reached out to us to alert us they're working on any issues."

### TIME

"With bswift we've gotten a significant amount of time back, not just for our benefits team, but for our I.T. team, our contact center and our HR services center."

### SECURITY

**"We have a very strong security system at Boehringer Ingelheim. We vetted bswift from a security perspective and the system passed with flying colors."**
