

Placing a premium on data security

THE STORY

With major security breaches in the news over the past few years, data security is top of mind for consumers. All things considered, it's safe to say that security is an important aspect of any successful company.

WHY bswift

Today, 65,000 employers use bswift, with 14.5 million lives on our platform. Backed by the investment of a Fortune 5 company, CVS Health, our continual reinvestment in security and innovation helps guarantee that your company's benefits strategy and member data are protected. Through a combination of technology, compliance and policies, we monitor and safeguard our clients' data 24 hours a day, 7 days a week.

SEE WHAT OUR CUSTOMERS AND PARTNERS HAVE TO SAY ABOUT THE SECURE bswift EXPERIENCE

"We have a very strong security system at Boehringer Ingelheim. We vetted bswift from a security perspective, and the system passed with flying colors." – *Benefits Specialist, Boehringer Ingelheim*

With an A rating on a recent third-party security evaluation, bswift is

5.5x

less likely to experience a security event compared to providers with an overall score of C, D or F.*

"I would recommend bswift because of the security they put around their product and their data with Aetna's backing. I don't think it can be touched."

– *Vice President of National Benefits, Brown & Brown Insurance*

"When you're secure, you don't think about security because you know you're in good hands."

– *President & CEO, HealthPass*

World-Class Cybersecurity Program

bswift leverages a Global Security program which includes the independent third-party security risk assessment company, SecurityScorecard, to continually assess the security of our platform against 10 cybersecurity areas. Recently, bswift received an overall score of 99 out of 100 and was ranked the most secure benefits administrator.*

*SecurityScorecard, 2020

"The ability to offer a great tool has really opened up the chain of communication and trust. It allows us to be excellent and respectful while at the same time making sure that we're **protecting our employees' data** through safety measures...Considering all the news and all the information we hear about data breaches, it's just comforting for us to know that our employees feel comfortable using the system."

– *Manager of Benefits, EnPro Industries*
